WPC integration fast installation wall panel contains many specifications, and it is easy to install. WPC integration fast installation wall panel not only has the surface of natural wood, but also overcomes the disadvantages of natural wood. It's also easy to be processed, the same with wood, can be sawed, nailed, planed, just by the carpenters' tools, and better nail-holding ability than usual normal wood; and has the same compressive property, impact resistance with hard wood, much more durable than normal wood; WPC and its products, are anti-corrosive alkali, waterproof, not breeding bacteria, insect prevention; anti-aging, anti-static, antifleaming. WPC integration wall panel not only has the colorful patterns the same with wallpaper, painting, but also has strong third dimension and sense of concavo-convex, is a substitute product of wallpaper and painting.
